

# Black Rain

Sammie

Oh no...yeah...

You've been mistreated, broken to pieces  
countless times he's used you and cheated  
brought you down girl hurt you beyond measure  
one man's trash is another man's treasure  
I see you struggling go through the motions  
Tears they flow but he doesn't notice

When you heart I hurt  
I feel your pain  
So hard to see your face,  
girl I ever see is black rain

I know you're tired of crying, crying (black rain)  
Inside you're slowly dying, dying (black rain)  
Your heart's in need of me  
Girl I swear, I'm right here  
Dry your tears (black rain)  
I know you're tired of crying, crying (black rain)  
Inside you're slowly dying, dying (black rain)  
Your heart's in need of me  
Girl I swear, I'm right here  
Have no fear

I know your first love's  
the hardest to break  
but his love versus mine girl  
doesn't equate  
baby I'm real (so real)  
no, I can't erase  
what he did,  
but I vow that I will give you  
a new outlook  
on this thing called love  
We will cherish each other  
Foundation is trust

When you heart I hurt  
I feel your pain  
So hard to see your face,  
girl I ever see is black rain

I know you're tired of crying, crying (black rain)  
Inside you're slowly dying, dying (black rain)  
Your heart's in need of me  
Girl I swear, I'm right here  
Dry your tears (black rain)  
I know you're tired of crying, crying (black rain)  
Inside you're slowly dying, dying (black rain)  
Your heart's in need of me  
Girl I swear, I'm right here  
Have no fear

Please believe me  
I'm not out to hurt you

You gave your love to him  
But he don't deserve you  
Just let him go girl  
there's no better way  
To stop the tears from running  
Tears running down your face

I know you're tired of crying, crying (black rain)  
Inside you're slowly dying, dying (black rain)  
Your heart's in need of me  
Girl I swear, I'm right here  
Dry your tears (black rain)  
I know you're tired of crying, crying (black rain)  
Inside you're slowly dying, dying (black rain)  
Your heart's in need of me  
Girl I swear, I'm right here  
Have no fear  
(Black rain)
