

Tear It Up

Sammy Adams

I need space, I'm an astronaut
Time to hit the beach, watch hoes like I'm Hasselhoff
Hoes like I'm Hasselhoff
Skinny gold chains, keep it classy dog
On the board of smokin' Lassie dog
Clap clap clap clap clap till' your hands hurt
Wonder who that fly kid is I'm the answer
That that that that that's the damn shit
So much cheddar motherfucker growin antlers

We've only got tonight to feed our appetites
So don't forget to live life life life life..
Tear it up, tear it up oh oh oh oh..
Tear it up, tear it up oh oh oh oh..
Tear it up, tear it up oh oh oh oh..
Feel like we made it, all night get faded

Turn around, break it down down babe
Down down babe, put that down, till your ass hurt
Cute face, yea, body movin' like a dancer
Clothes so sweaty, still lookin' pretty handsome
Bang bang Sammy game, Sammy over everything
Sammy over everything, back up, move again
Back up, move again, dacin' like a hooligan
Life of the party, get started, let's fuckin' get it in

We've only got tonight to feed our appetites
So don't forget to live life life life life..
Tear it up, tear it up oh oh oh oh..
Tear it up, tear it up oh oh oh oh..
Tear it up, tear it up oh oh oh oh..
Feel like we made it, all night get faded

Things gettin' good getting hotter every summer
Don't leave you girl around us cuz somebody'll probly
fuck 'er
I stay in my road, I'm just a calm guard chucker
Straight wins, ok c is what I'm reppin' like the
thunder
Okay okay okay
Okay cool I'm an animal, who are you?
And I got girls that'll drink you under the table so
bring your crew
Drink drink drink you under the table so bring your
crew
Getting faded over here, how are you?
Doesn't matter, huh?

We've only got tonight to feed our appetites
So don't forget to live life life life life..
Tear it up, tear it up oh oh oh oh..
Tear it up, tear it up oh oh oh oh..
Tear it up, tear it up oh oh oh oh..
Feel like we made it, all night get faded

Tear it up, tear it up oh oh oh oh..
Tear it up, tear it up oh oh oh oh..

Tear it up, tear it up oh oh oh oh..
Feel like we made it, all night get faded

Tear it up
