

# Flamingos Fly

Sammy Hagar

You lay by my side in the still of the night  
Let morning bring forth all that's wondrous, wondrous to light, mmm  
You could have made it, made it more plain  
When I hear that, hear that soft refrain  
And I hear you gently sigh

I wanna take you where flamingos fly  
Flamingos fly  
Way over yonder in the clear blue sky  
That's where flamingos fly

As we lie in the dark and hear the sweet sound of the nightingale  
And we listen for the lark, and I wanna tell you babe, tell you a tale, yeah  
With the soft wind blowin', blowin' outside  
Hey, I wanna take that moonlight ride  
And I hear you gently sigh, babe

I wanna take you where flamingos fly  
Flamingos fly  
Way over yonder in the clear blue sky  
That's where flamingos fly

And I'm silently waiting for that morning light to shine  
And I'm looking at you, lookin' at me, and I'm lookin' at you  
And I'm anticipating with each and every sign  
Yes, I'm lookin' at you, lookin' at me  
Lookin' at you, lookin' at me, lookin' back at you

And I follow that road that will take me, take me back home to you baby  
Yeah, and I'll carry the load where the deer and angels roam  
Where happiness touches, touches the now  
I don't where it came from, I don't how  
And I, and I hear you gently sigh, babe

I wanna take you where flamingos fly  
Way over yonder  
(Way over yonder in the clear blue sky  
That's where flamingos fly, flamingos fly)  
Yeah, where flamingos fly

(Way over yonder)Just you and I (in the clear blue sky  
That's where flamingos fly)take me where(flamings fly)  
I can't wait no longer  
(Way over yonder)I can't wait no longer(in the clear blue sky  
I want to take you where flamingos fly  
That's where flamingos fly, flamingos fly)  
Flamingos fly  
(Way over yonder)come on, baby(in the clear blue sky)  
Come on, baby I want to take you there(That's where flamingos fly)  
Just you and I (flamingos fly)  
One time way over yonder  
(Way over yonder in the clear blue sky) Way..  
(That's where flamingos fly, flamingos fly)
