

# Serious Juju

Sammy Hagar

Don't disturb my paradise  
I've asked you once, I asked you nice  
Mother Earth will punish you  
With some serious juju

Astronomical divide  
We stand and watch two worlds collide  
Paranoia, paralyzed  
We need some serious juju

Untied from the whipping post  
Set free from Mary's spell  
Cut loose from the ball and chain  
Nine steps from the wishing well

Tuggin' on the Devil's sleeve  
He'll cut a deal for me  
Locate me anywhere  
I'll be there

It's serious, it's serious

The politician's speech is jive  
He lies to keep the lie alive  
While mass confusion makes him strong

It's serious  
Serious juju

Got no agenda here  
I got to scream it out (juju)  
Moments of clarity  
I'd rather be without

It's never loud enough  
Shouts out a distant child (juju)  
Ignore my bloody throat  
I'll go the extra mile

It's serious, wooh, juju  
Yeah, it's serious, ha, juju

(Somebody save the world)  
It's serious, it's serious juju  
(Somebody save the world)  
It's serious, it's serious juju  
(Somebody save the world)  
It's serious, so serious juju  
(Somebody save the world)  
It's serious, it's serious, it's serious juju
