

Someday

Sammy Hagar

Dim the lights when you're not sleeping
Lay the book down on the floor
Spread the dream across your pillow
Unlock the door

And make a wish, love will find you
Cuddled safely in your room
Close your eyes, go to sleep now
If you're to [Sammy Hagar "Young Girl Blues"]

Guardian angels come back to me
Bring me visions like I've never seen
Inspiration in my dreams
Can let your love light shine down on me

Love, wherever you are
Come and find us, no matter how far away
Teach us the way to our soul
That hollow feeling ever no more
