

Switch On The Light

Sammy Hagar

Know what you're getting high on
How much you're getting by on
Everything you afraid of, well
It ain't no thing

What about your future
When you drown in that past?
Can't talk to your father
'Cause he can't understand your ass

Why don't you get yourself up off the couch?
One time

Switch on the light, wooh
Switch on the light
Switch on the light
Switch on the light (switch on the light)

Well he, he got no business since I swear
Got no fashion sense, got no hair
Can't make fun of him 'cause he ain't no fun
Gotta sleep with the shade down, can't have no sun

Why don't you get yourself up off the couch?
One time

Switch on the light
(Get off the couch) uh
Switch on the light
(Switch on the light) Hey, hey

Why don't you get up off the couch?
Switch on the light

Good God Almighty, huh

Now life jumped up and smacked him right between the eyes
Just like a feline he got eight more tries
Just do what he want to, just enough to get by
Hey, what you afraid of man, just light?

Why don't you get yourself up off the couch?
One time and

Switch on the light
Switch on the light
Switch on the light
Switch on the light

(Switch on the light)
(Switch on the light, ha ha ha)
(Switch on the light)
Get yourself up

(Switch on the light) uh
(Switch on the light) Switch on the light
(Switch on the light) Switch on the light

(Switch on the light) uh

(Switch on the light) Gon' get yourself up

(Switch on the light) Off the couch

(Switch on the light) Get yourself up

(Switch on the light) Off your feet and

Switch on the light

(Switch on the light)

Switch on the light, switch on the light

Switch on the light
