

The Iceman

Sammy Hagar

Look out, here he comes, skatin' down the street
You can tell he's cool by the way he moves his feet
Always on the thin side, he's so careful what he eats, ow

I said the Iceman, yeah, he's in town
Must be the Iceman, let it be known

He's got a teaspoon hangin' from his neck
Freeze ya to the bone ladies, this man is pure sex
You ain't seen nothin', till you seen him flex, ow

I said the Iceman has come to town
Must be the Iceman, I heard he's back
Yeah, the Iceman, there's no mistake

He's got the best lines in town
He's always hangin' 'round, yeah
If you put it up, he'll put 'em down
He's freezin', this man ain't cold
I said the Iceman has come to town

(The Iceman has come to town)
Yeah, so beware ladies
(The Iceman has come to town)
Oh, you better grab your woman boy
(The Iceman has come to town)
Look at 'em, headin' on down, drivin' down the road
(The Iceman has come to town)
Hey man, all leaned off to one side, you know

White on white from his head to his toes
Right on down to his big long white El Dorado
And if he ain't there, man there's no place to go

That's 'cause the Iceman, he's in town
Must be the Iceman, nobody else
The Iceman, I know he's in town, oh yeah

(The Iceman has come to town)
Whoo, look out, here he comes now, baby
(The Iceman has come to town)
(The Iceman has come to town)
Oh yeah
(The Iceman has come to town)
You better grab, better grab your woman boy
(The Iceman has come to town)
Whoo, this man ain't jivin' no, he ain't jivin', no no
(The Iceman has come to town)
Look at him, there he goes, sucker's so bad
(The Iceman has come to town)
