

The Yogi's So High (I'm Stoned)

Sammy Hagar

I felt the earth move, saw the sun rise
Knew who the stars shine for
Understood Ouspenski, witnessed Velokowski's
Sunset rising at my door

Tracing my footsteps right down that slow drain
I felt so relaxed, so cool
What killed another fool
Just kept me sustained

So I'll just watch the mountains grow
Listen to the wind lie to me
Diggin' them changes on the radio
I'm cravin' some cool, cool water
I'm dying of thirst
Like some fool salted my circumcision

And the yogi's so high
But the difference is little differences
I've never been so high
Only difference is little differences

I'm stoned, stone cold
Stoned, I'm stoned
I swear, I'm there
I'm stoned, uh

First the silence, then the heat
Then fear sets in
Afraid you're gonna get an answer you don't want to hear
The truth puts blisters on my skin

Now, I got a problem with this whole concept, you see
Ain't no beginning, no end
It seems like every time I think I've arrived
A whole new trip begins

And the difference is
Should I say, the problem is, oh

I've never been so high
Only difference is little differences
And the yogi's so high
But the difference is little differences

I'm stoned, stone cold
Stoned, I'm stoned
Stone cold, I swear
I'm stoned, cold
Stoned

I'm there
I swear, I'm there
I'm stoned, cold
Stoned, so stoned
I know, I swear
