Evangeline

Sammy Kershaw

She's been here Workin' all summer long Pumpin' gas For the boats on the Caux de Blanche She's so brown from bein' in the sun all day And boys from town Hang around her papaw's place (and they all say)

Hey you can see here down at the boondocks Walkin' up the pier in her flip flops Tyin' up the lines in her tank top Dippin' out the bait at the bait shop

Well ever y boy around would love to say that girl's mine But sum mer's gonna end I know Oh we gonna miss you so Wish you didn't have to go? Evangeline

It won't be long She'll be goin' back to school Goin' home All the way to Baton Rouge Well her pa-paw Says he'll get along the best he can And all the boys Will be so broken hearted then ('til it's summer again)

Hey you can see here down at the boondocks Walkin' up the pier in her flip flops Tyin' up the lines in her tank top Dippin' out the bait at the bait shop Well every boy around would love to say that girl's mine But summer's gonna end I know Oh we gonna miss you so Wish you didn't have to go? Evangeline
