I Saw You Today

Sammy Kershaw

Despite all the distance and time And the changes that I have gone through You never strayed far from my mind And I never stop hoping once more, I'd see you

Then I saw you today, in the backyard at play Baby blue eyes, blond hair in the wind She's you all over again Although you went away, I saw you today

I used to wish on a star And I used to send up a prayer To Heaven where I know you are That some day I'd see you up there or somewhere

Then I saw you today, in the backyard at play Baby blue eyes, blond hair in the wind She's you all over again Although you went away, I saw you, I saw you today
