

# Takin' The Long Way Home

Sammy Kershaw

There's a place of the edge of town  
Where everybody hangs around  
Watchin' the sun go down until it's gone

Sometimes I drop in  
In fact more than now and then  
Lately I've been takin' the long way home

Sometimes she still holds me tight  
And tells me everythin's alright  
Even though I know she is already moved on

Here I am my friend  
Where I seen the wind up in the end  
And once again I'm takin' the long way home

It's a long way, long way from here to there  
Gettin' longer everyday but she don't care

There's really nothin' for me here  
But I guess I'll have another beer  
And walk on over there and play one more song

[?] time for me to go  
Where I'm going I don't know  
I just know I'm takin' the long way home

It's a long way, long way from here to there  
Getting' longer everyday, oh, but she don't care

Still sittin' here my friend  
I knew I'd be here till the end  
'Cause once again I'm takin' the long way home  
'Cause once again I'm takin' the long way home
