

Beneath The Tree

Sampha

Don't fail me now I need your wishes (wishes...)
I imagine those coloured skies
Window down and we're caught in flight
You can let the breeze, let the breeze cool you
And I hope the wind blows out those fires of doubt

If there's a monster inside of here
Well I'm gonna keep it clear
I wish it would take all these things and go
There's no more we need to know

We fade out lover, yeah
We need time to recover, yeah
Well you can have a wish, have a wish on me
I know it makes you feel at ease
How could I disagree

If there's a monster inside of here
Well I'm gonna keep it clear
I wish it would take all these things and go
There's no more we need to know

You suppress concerns habitually
You take away that apathy
It means you mean something to me
I need assistance beyond my dreams
A fire beneath the tree
A calm sea in anarchy
How do you smile, you smile at ease
My desire burns beneath

Don't fail me now i need your wishes (wishes...)
If there's a monster inside of here
Well I'm gonna keep it clear
I wish it would take all these things and go
There's no more we need to know
