

## Take Me Inside

Sampha

Does he still make your blood rush?  
These days I'm just not sure how to feel  
Does he still make you run wild?  
Sadness, and your lips were sealed  
As if you didn't care and your love was gone  
Our love was lost  
Calm before the storm  
I don't care if you take me inside  
You can't be what you want everytime  
And I know it's hard to find the mind to say you do

You're free  
You're free, you're free, you're free  
You're free enough to find your fear  
And you're so free enough to hide from me  
And I seek  
I seek, I seek, I seek  
I seek for something I can't see  
And maybe we were meant to be  
And maybe this is all a dream
