

# Stella

San Cisco

Your hearts down, down in the ocean  
Don't get burnt put on your sun lotion  
Don't get hurt like the haters in the back row  
Kick it down the front with the lovers that you know  
That you know

Don't speak a word about the people that you don't like  
Just spread the love, it will be all right  
Coz you're always fucking it up now  
So why would you do that why would you do that just shout  
And just shout and just shout

They never let you out at night  
(Freak out freak out)  
And when they found out you had lied  
(Freak out freak out)

Stella stole your heart when you looked her in the eye  
You knew from then on she would never lie  
Seeing life in black and white  
She will always be with you  
By your side by your side

You try so hard and just get by  
If this was a movie, you'd be flying high  
All you need is a little more time  
And all I need is to write one more line  
One more line one more line

You want to be a star with the girls and the cars  
And you what to break all their hearts  
So run away
