

Crueler Kind

San Fermin

I wouldn't worry
Your melodramas are embarrassing
My cripple Henry
Imagine menace under everything
I wouldn't worry
I'm not about to fall in love again

It's not a moment
It's just a crueler kind of punishment

When you've given up the sun
And your heart is awful empty
We'll the best is yet to come
Love, the enemy

I wouldn't worry
I'm not about to fall in love again

It's not a moment
It's just a crueler kind of punishment

When you've given up the sun
And your heart is awful empty
We'll the best is yet to come
Love, the enemy
