

I Can't Wait

Sanchez

You say you love me, baby
And we should be together
With you just drive me crazy
Now that we are together

I can't wait 'til the morning comes
I can't wait 'til the evening's done
You call me on the telephone
And tell me you're coming home

And now that we're together
We'll chase the stormy weather
And cherish every moment
That we should be together

It's so long we fell in love
And you left here, so all alone
Now you're here, I won't let you go
Will forever let this feeling flow
Hey

Lord, have mercy
Ooh, baby, sing it again
I can't wait 'til the morning comes
And I can't wait 'til the evening's done
You call me on the telephone
(Yes, girl)

And now that we're together
Will chase the stormy weather
And cherish every moment
That we should be together

It's so long, we fell in love
(Yes, girl)
And you left here, so all alone
Now you're here, I won't let you go
Will always let your feeling grow

Lord, have mercy
You're so wonderful, beautiful
Pretty, sexy lady
Oh, yes

You say you love me, baby
And we should be together
With you, just drives me crazy
Now that we are together

I can't wait 'til the morning comes
I can't wait 'til the evenings done
And you left here, so all alone
And tell me you're coming home

Sing it again
Lord, have mercy, why?
