

Commitment

Sanctus Real

It's no mystery what the difference is
Between love that lasts and one that's caving in
It takes more than a feeling if you wanna survive
In a world that blurs the lines between wrong right
Trades true love for a compromise

I wanna finish the life we started
I wanna be two old beautiful souls that stayed with it
And in those times our feelings fade I'm gonna give you the one
thing
That makes all the difference
Commitment

Some people say, you shouldn't have to change
Somebody should love me exactly the way I am
Maybe it's true, but I'll do whatever it takes
To help you realize that I'm in for life
To lift you up and lay down my pride
Oh yeah

Cause I wanna finish the life we started
I wanna be two old beautiful souls that stayed with it
And in those times our feelings fade I'm gonna give you the one
thing
That makes all the difference
You have my commitment

I'm with you, through any kind of weather
I'm with you, sunny days or disaster
I still do, and it's never gonna matter
What we're going through, cause we're in this together

And I wanna finish the way we started
Just two broken souls clinging on to Jesus
We've seen His faithfulness and grace and I wanna love you that
way

I wanna finish the life we started
I wanna be two old beautiful souls that stayed with it
And in those times our feelings fade I'm gonna give you the one
thing
That makes all the difference
Commitment
You have my commitment
