

Easier On My Heart

Sanctus Real

If I could run the distance
Between Your heart and mine
If I could climb my way up
To the highest point
I could see everything that You want me to see
I could breathe the air that You breathe
I want to breathe the air that You breathe

It would be a little easier on my heart
If I had a taste of Heaven
It would be a little easier to hang on
If it wasn't so hard to imagine
Take, take, take me in Your arms
Take, take, take me in Your arms
Take me in Your arms
Make it a little easier on my heart

I've wandered lonely spaces
In search of who You are
I hold the times I'm with You
So closely to my heart
How else could I know the power of love
If it never lifted me up
If it never lifted me up

C'mon take, take, take me in Your arms
Don't let me get away
Hold me close to Your heart
Take, take, take, me in Your arms
Don't let me fall away
When I'm falling apart
