

Nothing to Lose

Sanctus Real

Give love one to another
Give love one to each other
And we'll be fine
We'll be fine

I feel alone, I feel so cold,
When I'm apart from you for just one night
You keep me alive
Feeling fine
When I've got something as good as you inside.

Got nothing to lost been hanging in twos
But I need something to get me through this
Nothing to lose been hanging in twos
But I need you to get me through this

There's no better time
Than when I find You in a feeling
And know I'm doing alright
Nothing to hide, just to confide
When I've got something as good as You inside

What the world needs now
Is a little know how
To turn itself right upside down
