

One Word at a Time

Sanctus Real

You have so many big ideas
But you don't know what to do
To take something inside of you
From make believe to a dream come true
We all wanna be spiritual giants
We all wanna do greater things
It all starts with a grateful heart
And the will to live you what it says
One word, live it out
Show us what it's all about

Living one word
One word at a time
Living one word
Living one word
One word at a time
Living one word
Every morning is a new sunrise
A chance to change the world by living out your life
One word at a time

It's the way that we were created
God spoke and it came to be
And I don't doubt, but I believe
That He's alive in the words we read
One word
Live it out
C'mon and show the world what it's all about

Living one word
Can lead you to freedom
Can make you courageous
Living one word
Can help you discover
Your life direction
