

Ride it Out

Sanctus Real

Sometimes you feel like you're losing yourself in this life
You're a ship with your sails set high and there's wind in the
air tonight
You pray someone saves you
Before the storm takes you
When you feel afraid

Don't you turn around in the sea of doubt
You don't want to drown if the ship goes down
So clear your eyes
Keep your sails high
And ride it out

The waves they will shake you
They may strike fear in your heart
Oh, this trial will shape you
Help you find life in the dark
When you stand on the edge of an ocean
Don't let it swallow your faith

Don't you turn around in the sea of doubt
You don't want to drown if the ship goes down
So clear your eyes
Keep your sails high
And ride it out through the sea of doubt
Don't let your fear steal your finest hour
Embrace the ride
Keep your sails high
And ride it out

The wind will take you where you're meant to be
The waves will break when your Creator speaks
And when it's over you will clearly see
That the storm was only there to show you what it takes to believe
