

The Dream

Sanctus Real

So many places I want to go
So many things I want to see
There's a longing in my soul
To feel complete
And I have wondered what was lost
And whether I'd find the missing piece
But You were with me all along
And now I see

The dream is alive
I feel it inside
When You're close
I see the light
The dream is alive
And it's right in front of me

It's You
It's You
It's not a place
It's not a thing
It's not a trivial pursuit
The dream is You
The dream is You

Fleeting obsessions fill my mind
A human heart can be so weak
But underneath my roots cry out
You're all I need

The dream is alive
I feel it inside
When You're close
I see the light
The dream is alive
And it's right in front of me, yeah

Can't believe I ever had a doubt
Wrap Your arms of love around me now
It took me all these years to figure out
