

# The Way the World Turns

Sanctus Real

Empty moments when I feel hopeless  
Have left me restless inside  
Doubt and sadness have kept me in fragments  
Longing for a better life

Oh, it's the way the world turns  
The way, the way  
And I feel the current pulling me down  
Can keep the world from turning around  
So I keep turning to You  
I keep turning  
Cuz You're the hope of a new sunrise  
Breaking over our desperate lives  
And I keep on turning to You  
I keep turning to You

I'm so distracted by senseless passions  
Tempting my wandering eyes  
But every person brings me closer to the truth  
That only You can satisfy

When I feel the current pulling me down  
Can keep the world from turning around  
Though I keep on turning to You  
I keep turning  
Cuz You're the hope of a new sunrise  
Breaking over our desperate lives  
And I keep on turning to You  
I keep turning

From where we're hurting  
Keeps us turning to You  
To You

Oh, it's the way the world turns away  
The world turns  
Oh, and I keep on turning to You  
Oh, it's the way the world turns away  
The world turns  
Oh, and I keep on turning to You

Cuz You're the hope of a new sunrise  
Breaking over our desperate lives  
And I keep on turning to You  
I keep turning to You
