'Til I Got to Know You

Sanctus Real

I tried perfecting myself
Would You love me more without my mistakes
I tried not to ask for Your help
Cuz I didn't want to scare You away

Yeah I was always worried
I was gonna let You down
Oh, it felt like I was standing
In between the lost and found

Till I got to know You
You, I was at a place when You found a way
To break through
It's true
I was just a skeptic
Till I got to know You, You

And it's hard accepting Your grace
In a world where nothing's free
For so long I was afraid
That You'd only see the worst in me

Yeah, I was always worried
You were gonna figure out
That I wasn't what You wanted
Wasn't worth being around

Till I got to know You
You, I was at a place when You found a way
To break through
It's true
I was just a skeptic
Till I got to know You, You

And you have always been on my side
I finally see it
It took so long to believe in it
Cuz I was always worried
I was gonna let you down
Till I got to know You, You
Till I got to know You, You, You

Till I got know You, You
I was at a place when you found a way
To break through
It's true
I was just a skeptic
Till I got to know You
