

# We Will Never Give Up

Sanctus Real

We will not lose heart  
We will not lose hope  
When all we see is fading  
We trust in what we know  
We will never give up

Pressed on every side  
Praying for escape  
We can see the answer  
That You're the only way  
We will never give up

We will fix our eyes on the One who will last forever  
We will hold on tight to the only real treasure  
We will not lose heart  
We will not lose hope  
We will give our lives to the One who will last forever

We were born into weakness  
Fragile by design  
So we hold onto Jesus  
With everything inside  
We will never give up

We will fix our eyes on the One who will last forever  
We will hold on tight to the only real treasure  
We will not lose heart  
We will not lose hope  
We will give our lives to the One who will last forever

Greater is the One in us  
We will never give up  
Power of the Risen Son  
We will never give up  
We will never give up

We will fix our eyes on the One who will last forever  
We will hold on tight to the only real treasure  
We will not lose heart  
We will not lose hope  
We will give our lives to the One who will last forever

We will not lose heart  
We will not lose hope  
We will give our lives to the One who will last forever  
Forever
