

You Are God

Sanctus Real

Your ways are higher than, anyone could understand
Your thoughts run deeper, You are God
You save but it's not because, of anything that we have done
But only by Your mercy and Your great love

You are God, You are God, You are God
You are God, You are God, You are God
Not mine but Your will be done
Not mine but Your kingdom come
You are God, You are God, You are God

Plans of the heart belong to men,
The outcome is in Your hands
Without You nothing stands, You are God
You hold the beginning and end, You know every where and when
Without You nothing would have ever been

You are God, You are God, You are God
You are God, You are God, You are God
Not mine but Your will be done
Not mine but Your kingdom come
You are God, You are God, You are God

When we felt dead in our sins, looking for love
We know that You made the way

Cause You are God, You are God, You are God
You are God, You are God, You are God
You are God, You are God, You are God
You are God, You are God, You are God
Not mine but Your will be done
Not mine but Your kingdom come
You are God, You are God, You are God
