

# Nothing Inside

Sander Van Doorn

I don't see it in your eyes  
Just a cold blank stare  
And no one's asking why  
Why you don't seem to care  
We're lost our way, lost our way

Maybe we're run out of time  
Driving our selves out of our minds  
Maybe we're missing the signs  
All of our dreams making us blind  
Baby we're leaving behind  
Nothing to see, nothing inside

You're falling out of touch  
And you're barley there  
Keeping up with the rush  
Just to go nowhere  
We're lost our way, lost our way

Maybe we're running out of time  
Driving ourselves out of our mines  
Maybe we're missing the signs  
All of our dreams making us blind  
Baby we're leaving behind  
Nothing to see, nothing inside  
We're out of our minds with nothing inside
