

## Imagine (How God Can Sing)

Sandi Patty

Imagine how God can sing  
How His voice delights the universe  
With a range that blends eternally  
Into chords of His love

Imagine how God can dance  
Moving gracefully up to our hearts  
To invite us to be intimate  
And share in His joy

Then imagine how God must feel  
If we move back away from Him  
To design our own destinies  
Shaping lives of desiring and fear

Then imagine God's happiness  
When a wanderer cries out to Him  
For the peace that only He can give  
For the strength He grants to truly live  
And when the choice is made to look to Him  
And finally draw near
