

# Ghost Town

Sandi Thom

I needn't know I had to leave  
Before your love deadly crippled me  
Now half my heart can always be found  
Sleepin' in that old ghost town

Baby you were my one regret  
Such a sad song I simply won't regret  
Coz it's written in the walls  
Now the walls went down  
All around that old ghost town

Sometimes I take a wander  
Through these empty streets  
Listenin' to the echoes  
Of the past

True love is a city  
Built on endless dreams  
Our town was never  
Built to last

Darlin' you'll always be my friend  
Though I hated you until the bitter end  
Coz you took my love and weighed it down  
And left it in that old ghost town

In my dreams I sometimes  
Go a-walkin'  
When I'm lost  
I search for homeward bound

Somehow every road  
I end up takin'  
Leads me to that  
Old ghost town

So now I've finally found my fate  
I know that leavin' you  
Was never a mistake

When the stars are out  
And the world is sound  
You might find me  
In that old ghost town

You might meet me  
In that old ghost town

I lost my heart  
In that old ghost town
