## **Little Remedy**

Sandi Thom

Some things are meant to be the way they're gonna be 'Cos you can't stop time or change history Sometimes all you saw were the things you wanted to see if you be lookin for the answer you would have to go to me 'Cos now you've only got a moment boy To get it right to get it right to get it right

So if you really wanted me you'd show me how 'Cos I'm your little remedy if you take me now Oh if you really wanted me you'd show me how 'Cos I'm your little remedy if you take me now

Some things in this life, they just pass you by But they're gone forever in the blink of an eye This time you gotta do what you always had to do So open up your heart and show me that you're true 'Cos now you've only got a moment boy To get it right to get it right to get it right

'Cos if you really wanted me you'd show me how 'Cos I'm your little remedy if you take me now Oh If you really wanted me you'd show me how 'Cos I'm your little remedy if you take me now Oh If you really wanted me you'd show me how 'Cos I'm your little remedy if you take me now Oh If you really wanted me you'd show me how 'Cos I'm your little remedy if you take me now

Just now the minutes keep ticking past So if you think that our love's gonna last 'Cos now you've only got a moment boy To get it right to get it right to get it right

So if you really wanted me you'd show me how 'Cos I'm your little remedy if you take me now Oh If you really wanted me you'd show me how 'Cos I'm your little remedy if you take me now Oh If you really wanted me you'd show me how 'Cos I'm your little remedy if you take me now Oh If you really wanted me you'd show me how 'Cos I'm your little remedy if you take me now If you take me now If you take me now Yes take me now So take me now
