

# Angels in My Head

Sandra

Love me  
Care and believe  
That's all I need  
Feel me  
Turned inside out  
Dreaming out loud

So open up inside  
You'll find it all inside

I hear angels in my head  
They keep on singing to me  
Saving you from ecstasy

I hear voices in my head  
They whisper into my ear  
Keep you from falling in too deep

They keep keep calling out your name  
Your life life it won't be the same

I hear angels in my head  
I hear voices in my head

Find me  
I'm part of your mind  
Making me blind

Hide me  
Right behind you  
Keep shining through
