

Angels in My Head

Sandra

Love me
Care and believe
That's all I need
Feel me
Turned inside out
Dreaming out loud

So open up inside
You'll find it all inside

I hear angels in my head
They keep on singing to me
Saving you from ecstasy

I hear voices in my head
They whisper into my ear
Keep you from falling in too deep

They keep keep calling out your name
Your life life it won't be the same

I hear angels in my head
I hear voices in my head

Find me
I'm part of your mind
Making me blind

Hide me
Right behind you
Keep shining through
