

## Behind Those Words

Sandra

It's beautiful intent  
The way that we aim  
For the impossible  
Not sensational  
If we fail

And never pretend  
(Pretend)  
'Bout a single thing  
(Single thing)  
I'm the first to admit  
Just can't make it fit  
Always  
No

Wish I would have shut my mouth  
Why did I say it loud  
Hear me out it wasn't me  
Behind those words  
Behind those words

I don't recognize  
(Recognize)  
Myself at times I lose touch  
With who we really are  
(Really are)

Drop the guard  
(Drop the guard)  
It shouldn't be that hard  
(That hard)  
But I badly need back up  
How to say I'm sorry  
But how  
Oh no  
Yeah

Wish I would have shout my mouth  
Why did I say it loud  
Hear me out it wasn't me  
Behind those words

Sometimes I fall away form truth  
Believe me  
Didn't think I  
Could say something like that to you  
(Something like that to you)  
It wasn't me  
Behind those words

Oh no  
It wasn't me  
Behind those words

There's a different story  
(Different story)  
You never will hear

(Never will hear)  
I hope that somewhere  
I get to show you my side  
(My side)

And the whole picture  
(Whole picture)  
And did I ever mention  
Please forget what I said now  
Don't mind those words

Honestly  
I didn't mean anything no  
(I didn't mean anything no)  
It wasn't me behind those words  
(It's not me behind those words)

You know I fall  
Away from the truth  
Believe me  
Didn't think I  
Could say something like that to you  
It wasn't me  
Behind those words  
It wasn't me  
Behind those words
