

Heart of Wax

Sandra

Heaven
Touch the sky
Thought I'd never let you go
Time - still
Breathing slow
Don't need anything but you

The more I try to be strong
The more you keep shining on
It's your fire that melts
My heart of wax
I won't try to resist
Cause your love has been missed
It's your honesty that melts
My heart of wax

Long way
Stoney road
Many time I fell for you
Take me
Carefully
And make our love come true
