

# I Want You

Sandra

I need someone  
To hold me thru the night  
Someone who can share  
My destination

And when I dream of you  
I can't believe it's true  
How you came into my life  
I feel you and me  
Could almost reach the sky

Cause I want you  
Forever  
I want you  
Forever  
I want you  
Forever  
Yes I want you by my side

I would give you anything  
To make your dream come true  
The thought of ever losing you  
Just kills me

It's really love I feel  
When you care for me  
Getting stronger every day  
Baby can you understand  
This feeling  
(This feeling)

Cause I want you  
Forever  
I want you  
Forever  
I want you  
Forever  
I want you  
Forever  
Yes I want you by my side

Olaf:  
Love is like a flower in the rain  
It'll shine with all it's beauty like a flame  
Baby you're the one  
Who can make me feel this way  
We gotta hold on to love  
And never let go

Cause I want you  
Forever  
I want you  
Forever

Cause I want you  
Forever  
I want you  
Forever  
(Forever)

Everytime you leave I get really scared  
I see the shadow of your face everywhere  
Baby  
Cause I don't wanna loose you  
(Forever)

Everytime you leave I get really scared  
I see the shadow of your face everywhere  
Baby  
Cause I don't wanna loose you  
(Forever)

Cause I want you  
Forever  
I want you  
Forever  
I want you  
Forever
