

Just Like Breathing

Sandra

I open my eyes
And I take you in
First day of my new life
I am alive
My heartbeat begins

You ebb I flow
You need I know
You're calling
I'm already there

Just like breathing
Something that I was born to do
I've always been a part of you
Just like breathing
Everyday I need you to life
Like breathing

We don't have to speak
Oh no
I feel you inside
(I can feel you)
I knew you without a word
(No tell me)
Just like a bird
Knows how to fly

You ebb I flow
You need I know
You're calling
I'm already there

Just like breathing
Something that I was born to do
I'll always be a part of you
Just like breathing
I need you everyday to life
Like breathing
