

# Kings & Queens

Sandra

take me  
into your dream  
push reality a bit further  
hold me  
right in your arms  
making this moment forever

when a thousand people  
come across the land  
they stay all together  
and raise their hands

we'll be kings and queens  
the crown is in our hands  
ohh ohh our love will write history  
we'll be kings and queens  
we hold the golden band  
ohh the birth of a new century

we'll be kings and queens  
the crown is in our hands  
ohh ohh our love will write history  
we'll be kings and queens  
we hold the golden band  
ohh the birth of a new century

right here  
look in my eyes  
circle of hallucination  
feel me  
the fire inside  
drawing for your animation

when a thousand people  
come across the land  
they stay all together  
and raise their hands

we'll be kings and queens  
the crown is in our hands  
ohh ohh our love will write history  
we'll be kings and queens  
we hold the golden band  
ohh the birth of a new century

ohh  
ohh ohh

we'll be kings and queens  
the crown is in our hands  
ohh ohh our love will write history  
we'll be kings and queens  
we hold the golden band  
ohh the birth of a new century

(ohh ohh) / we'll be kings and queens  
the crown is in our hands

ohh ohh our love will write history
