

Love Starts with a Smile

Sandra

In the city
People rushing
Everybody's staring at the floor
Situations
Many chances
Then you get up and you break apart

Stop complaining
let the sun into your life
When you feel like saying
Something just cry

Look into each others' eyes for a while
Open up get together
Cause love starts with a smile
Don't be scared to show what's on your mind
Make a move - take a moment
Cause love starts with a smile
Cause love starts with a smile

Many encounters
Meant to happen
But you still have to play your part
You'll be happy
When you've passed the barrier
It will feel like you knew it from the start
