

# Never Before

Sandra

I'm not the same  
I never felt this way before  
Never before  
More and more

Never before I felt this way  
Never before I got to stay  
I know we're meant to be  
Now and eternally

Never before I knew love like this  
Never before I can't resist  
I wanna be with you  
Now one and one makes two

No matter where I go  
You're on my mind  
All my life before  
I have been blind  
Now I am strong  
I can't go wrong

My heart is full of love  
When I'm with you  
You can really make  
My dreams come true  
Two hearts as one  
Can't come undone

Never before I felt it's forever  
That's why I'm loving you

Never before I felt this way  
Never before I got to stay  
I know we're meant to be  
Now and eternally

Never before I knew love like this  
Never before I can't resist  
I wanna be with you  
Now one and one makes two

And when you talk to me  
I feel inside  
You're the one I need  
To hold me tight  
I'm not alone  
I feel at home

And when you dance with me  
All night long  
I feel you are the one  
Who makes me strong  
I'm no more sad  
You'll turn my head

You really showed me a new way of lovin'  
Cause one and one makes two

Never before I felt this way  
Never before I got to stay  
I know we're meant to be  
Now and eternity

Never before I knew love like this  
Never before I can't resist  
I wanna be with you  
Now one and one makes two

Oh I can't explain  
What I feel  
I am not the same  
With you  
I know why  
I believe  
We can rise  
And reach the sky  
Never before I felt this way  
Never before I got to stay  
I know we're meant to be  
Now and eternally  
(And eternally)

Never before I knew love like this  
Never before I can't resist  
I wanna be with you  
Now one and one makes two  
(One and one makes two)

Never before I felt this way  
Never before I got to stay  
I know we're meant to be  
(I know we're meant, we're meant to be)  
Now and eternally  
(Now and eternally)

Never before I knew love like this  
(Like this)  
Never before I can't resist  
I wanna be with you  
(I wanna be with you)  
Now one and one makes two

Never before I felt this way  
One and one makes two
