

# Silence Beside Me

Sandra

I've been alone for so many years  
You think I disappeared  
From an empty space  
There's silence beside me  
Unbearable - because of you  
You're so close - but where are you?  
My heart will be dying  
My dreams will be dead

There's silence beside me  
I'm feeling so lonely  
My heart is dying - for you  
There's silence beside me  
I'm waiting - where are you  
My dream is dying - just like me  
Without you

I lie awake for hours - like I said I would  
But I'm hurt - alone once again  
You broke your promise time and time again  
Seems you're invisible  
Do you even exist  
My heart will be dying  
My dreams will be dead

There's silence beside me  
I'm feeling so lonely  
My heart is dying - for you  
There's silence beside me  
I'm waiting - where are you  
My dream is dying - just like me  
Without you

My destiny  
It's not that our love should be

There's silence beside me  
I'm feeling so lonely  
My heart is dying - for you...
