

These Moments

Sandra

3 o'clock in the morning
And you're here with me in my arms
You stare at the sky
You see a million shining stars

When you tell the whole wide world
That true love does exist
Then when you lie on my side baby
It's you I miss

These are the moments that I'm living for
Moments that I'd die for
Baby I wish that you could only stay forever
These are the moments that I'm living for
Moments that I'd die for
Baby I wish that you could only stay forever

I missed your young caress
And this is something I have to confess
When I'm with you my darling
Everything makes sense

Love is hard to find these days
I will cherish love in you
It's a special time in my life
So sweet and true
(So sweet and true)

These are the moments that I'm living for
Moments that I'd die for
Baby I wish that you could only stay forever
These are the moments that I'm living for
Moments that I'd die for
Baby I wish that you could only stay forever

I am in love
I am in love
In love
In love
In love with you my baby

I am in love
I am in love
In love
In love
In love
In love
In love

These are the moments that I'm living for
Moments that I'd die for
Baby I wish that you could only stay forever
These are the moments that I'm living for
Moments that I'd die for
Baby I wish that you could only stay forever

I am in love
I am in love
In love
In love
In love
In love
In love
In love
