

What Is It About Me

Sandra

Please tell me the reason
You're acting this way
Don't worry, I can take it
Things can't stay the same
Oh, baby you can't disguise
That look in your eyes
The way that you feel
Your love is slippin' away
Slippin' away from me

What is it about me - you don't understand
What is it about me - that made you change your plans
What is it about me - that makes me love you so
What is it about me - I can't let you go
I can't let you go

Can't we find a way back
How did things change
I always believed that
We could make it through, anything
Oh, baby you can't disguise
That look in your eyes
The way that you feel
Your love is slippin' away
Slippin' away from me

What is it about me - you don't understand
What is it about me - that made you change your plans
What is it about me - that makes me love you so
What is it about me - I can't let you go
I can't let you go

Why is it so hard to please you
Never seen this side of you
What is it that's got you freakin'
What am I supposed to do

What is it about me - you don't understand
What is it about me - that made you change your plans
What is it about me - that makes me love you so
What is it about me - I can't let you go
What is it about me
What is it about me
I can't let you go
What is it about me
What is it about me
I can't let you go...
