

# Devotion

Sanna Nielsen

I'm wandering in the night  
In the middle of a wonderous dream  
By the dawn's early light  
I'm lost in these eyes

Oh, I'm trying to make you see  
I'll make you fall for me  
Don't, don't make us wait too long  
'Cause we have just begun

Honey, I'm talking about devotion  
I'm talking about attraction  
A vital chain reaction  
That's changin' my world  
That's come together  
Love, can make things better

Your smile gives you away  
I can hear the words you do not say, ey  
It's something in the air  
A secret we share

I can find another you  
You show me something new  
Don't, don't make us wait too long  
'Cause we have just begun

Honey, I'm talking about devotion  
I'm talking about attraction  
A vital chain reaction  
That's changin' my world  
That's come together  
Love, can make things better

Honey, I'm talking about devotion  
A natural emotion  
It's not a foolish notion  
It's heaven on earth  
The satisfaction  
No one can stop, this chain reaction

Honey, I'm talking about devotion  
I'm talking about attraction  
A vital chain reaction  
It's changin' my world  
That's come together  
Love, can make things better

Honey, I'm talking about devotion  
A natural emotion  
It's not a foolish notion  
It's heaven on earth  
The satisfaction

Baby, you're heaven on earth  
No, I can stop our love
