

# Impatiently Waiting For You

Sanna Nielsen

When you close your eyes  
Can you feel my touch  
Like a feather caressing your skin  
Like a silent prayer whispered in your ear  
I will guide you to be by my side

But now I'm walking around in the dark alone  
Finding my strenght in your heart

Impatiently waiting for you  
Hoping my dream will come true  
Impatiently waiting for you  
'Cause baby that's all I can do  
How can we make it together  
How can I make it come true  
Impatiently waiting for you

All these breathless lies creeping up behind  
I regret that I caused you this pain  
Let me hold you near  
Sweep away your fear  
Embracing your body and mine

We have connected our souls from the start  
And we know that nothing can keep us apart

Impatiently waiting for you  
Hoping my dream will come true  
Impatiently waiting for you  
'Cause baby that's all I can do  
How can we make it together  
How can I make it come true  
Impatiently waiting for you

I believe we were meant to be  
Seeking your eyes in the crowd  
The love that I feel with all of my heart

Impatiently waiting for you  
Impatiently waiting for you  
Hoping my dream will come true  
Impatiently waiting for you  
'Cause baby that's all I can do  
How can we make it together  
And how can I make it come true  
Impatiently waiting for you
