

# Loneliness

Sanna Nielsen

When we fell in love, we knew it was forever  
You and I were one, that's how it all would be  
Playing silly games, innocent like children  
Heaven in your eyes.

I never thought that it would come to this  
I can't believe, we could feel.

Loneliness, has found its way to our hearts  
Like a breeze so easy to ignore  
Emptiness, I don't know where we've lost it  
I thought you and I belonged, I'm so sorry we were wrong  
Loneliness, can we find our way back home.

Hold on to my hand, we're in this together  
You're trying to be strong  
But deep inside, we're searching for a way  
To fight the tears.

Loneliness, has found its way to our hearts  
Like a breeze so easy to ignore  
Emptiness, I don't know where we've lost it  
I thought you and I belonged, I'm so sorry we were wrong  
Loneliness, can we find our way back home.

Loneliness, has found its way to our hearts  
Like a breeze so easy to ignore  
Oooh, oooh, oooh  
Emptiness, I don't know where we've lost it  
I thought you and I belonged, I'm so sorry we were wrong  
Loneliness, can we find our way back home.
