

# Rainbow

Sanna Nielsen

Days go by  
I've been waiting for about a month  
Friendly fires from a silent front  
I'm going  
And I don't cry  
Sleeping in the middle of the bed  
I'm so ashamed of all the shit I said  
I'm going, heavens quiet

(Pre-chorus)  
Love is good  
And god I miss you (2x)

(Chorus)  
What I need won't be underneath a guiding star  
Won't be lying by the foot of a rainbow  
Foot of a rainbow  
What I need is unreliable, a bit bizarre  
And kinda crooked like the foot of a rainbow  
The foot of a rainbow  
Oh, cause all I want is you  
This loves crazy but it's you I want

Days go by  
I been standing in the pouring rain  
Praying quietly for something to change  
Everything  
And I don't cry  
It's so inside [?]  
Waters rising and my hearts afraid  
She can't swim  
And heavens quiet

(Pre-chorus)  
Love is cruel  
And god I miss you (2x)

(Chorus)  
What I need won't be underneath a guiding star  
Won't be lying by the foot of a rainbow  
Foot of a rainbow  
What I need is unreliable, a bit bizarre  
And kinda crooked like the foot of a rainbow  
The foot of a rainbow  
Cause all I want is you  
This loves crazy but it's you I want  
I want rainbows, rainbows (5x)

Rainbows, rainbows...
