

This Time Love Is Real

Sanna Nielsen

I've had my lover stay, a sweet, but gone.
We gave up the best and then I moved along
But something difference happen now
It's the way that you touch me
I saw my name was written in the clouds
The text that you pass to chain about
We know this time is gonna be for real

I see your smile across the sky
I touch your face and dreams
This stream that flows inside of me
Cuz this time love is real
You've seen the tears I used to cry
You've touched my face and dreams
The scene you've laid inside of me
Cuz this time love is real

When you're close I feel a rush inside
the heat of the night when we can find
We know this time is gonna be for real

I see your smile across the sky
I touch your face and dreams
The stream that flows inside of me
Cuz this time love is real
You've seen the tears I used to cry
You've touched my face and dreams
The scene you've laid inside of me
Cuz this time love is real

I see your smile across the sky
I touch your face and dreams
The stream that flows inside of me
Cuz this time love is real
I see your smile across the sky
I touch your face and dreams gone by
I sense the stream inside of me
Cuz this time love is real
Just seen the tears I used to cry
You've touched my face and dreams
The scene you've laid inside of me
Cuz this time love is real (2x)
