

Bye Bye Babylon

Santa Cruz

Welcome to the magic carpet ride
The sun will be your bride
We're on our way to the other side
One way ticket

Trippin' through states of revelry
Reachin' supremacy, I wanna fly
escape reality, so long babylon

I wanna feel it tonight
wanna feel the fire of being alive
As we ride out of sight
we come to light, so long babylon

Ah, ah, I will paint your fantasies to memories
Ah, ah, I will paint your fantasies to memories

We're floatin' through the space 'n' time
Cleansed up from all the grime
We're levitating to a world so sublime
Can you feel it?

Excuse us while we kiss the sky
Express train to shang-high
Light up the night like it's 4th of July
Sense it's warm embrace

Ah, ah, I will paint your fantasies to memories
Ah, ah, I will paint your fantasies to memories

I wanna feel it tonight
let's make it right
I wanna feel the fire
of being alive
As we ride out of sight
we come to light, bye bye babylon

(solo)

I wanna feel it tonight
wanna feel the fire of being alive
As we ride out of sight
we come to light, so long babylon

Ah, ah,
Ah, ah, I will paint your fantasies to memories

Ah, ah, I will paint your fantasies to memories
Ah, ah, I will paint your fantasies to memories
