

Let Them Burn

Santa Cruz

Burn burn to the ground
Bu-bu-burn burn to the ground
Ooh ooh All we need
Is the fire to burn them down
We're gonna let them burn

Open up your eyes, time to realize
You're blinded by the wolves
Wearing sheeps disguise
It's a mass disease,
Begging pretty please
Take action now or forever
Hold your peace!
Hold your peace!
Hold your peace!

Next time they'll turn
We're gonna let them burn

Burn burn to the ground
Bu-bu-burn burn to the ground
Ooh ooh All we need
Is the fire to burn them down
We're gonna let them burn
Burn burn to the ground
Bu-bu-burn burn to the ground
Ooh ooh All we need
Is the fire to burn them down

Easier to oblige than to antagonize
Take a turn, make em burn, no apologise
I'll take it on my chin, some will lose, some win
It for sink, it's in ink forever
On my skin
On my skin

Next time they'll turn
We're gonna let them burn

Burn burn to the ground
Bu-bu-burn burn to the ground
Ooh ooh All we need
Is the fire to burn them down
We're gonna let them burn
Burn burn to the ground
Bu-bu-burn burn to the ground
Ooh ooh All we need
Is the fire to burn them down
(We're gonna let them burn)

Burn, burn to the ground
We will stay unbound
Reach the final round

Burn burn to the ground
Burn burn to the ground
All you need is the fire to burn em down

Burn burn to the ground
Bu-bu-burn burn to the ground
Ooh ooh All we need
Is the fire to burn them down
We're gonna let them burn
