

# How To Create A Monster

Santa Hates You

spawn them out of selfishness  
on a drunken moonless night  
add a pinch of hopelessness  
just to get it right

fill their lives with disgust  
be sure to crush their trust  
belittle, terrorize, denigrate  
let them know you are their fate

they are your little playthings  
beyond a shadow of a doubt  
you brought them into this world  
and you can take them right back out

be careful what you wish for  
'cause wishes do come true  
the monster you're creating  
looks uncannily like you

foster an atmosphere  
of instability and alienation  
add a slice of fear  
to spice up your creation

when you have them at your feet  
don't be shy and just repeat:  
this hurts me more than it hurts you  
I only want what is best for you

be careful what you wish for  
'cause wishes do come true  
the monster you're creating  
looks uncannily like you

neglect them, brutalize them  
incorporate psychic numbing  
and then harm them some more  
till their bodies and souls are sore

be careful what you wish for  
'cause wishes do come true  
the monster you're creating  
looks uncannily like you

it was you all along  
how did you get it wrong?  
through and through  
the only monster here is you
